

Bonn, 18.12.2021

From February 1, 2022 onwards (subject to authorisation), the **Crop Science Group** at the University of Bonn seeks to employ, for **up to 2 years**

## 1 Lab assistant (50%) (TV-L 9)

The successful candidate will be involved in the Soil3 Bonares project.

- Your tasks:
- Planning, organizing and conducting field measurement campaigns in our trials
  - Processing of samples in the labs
  - Digitalization of data from these field experiments
  - Collaborating on joint research with colleagues involved in our project
- Your profile:
- A Bachelor degree in agriculture, ecology or related disciplines, with a focus on crop science and/or plant-plant interactions
  - Experience in field experimentation
  - Experience in processing samples and lab work
  - Driving license and fluent English
  - An interest in interdisciplinary and collaborative work
- We offer:
- An open, stimulating and interdisciplinary work environment where good ideas are encouraged and supported
  - The opportunity to work with several groups in an interdisciplinary work environment
  - 50% TVL E9a on the salary scale

Applicants please submit (1) A letter of motivation, (2) a curriculum vitae, (3) and a copy of your Bachelor or Master degree.

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university and aims to increase the number of women employed in areas where women are under-represented and to promote their careers. To that end, it urges women with relevant qualifications to apply. Applications will be handled in accordance with the *Landesgleichstellungsgesetz* (State Equality Act). Applications from suitable candidates with a certified disability or equivalent status are particularly welcome.

If you are interested in this position, please submit your **complete application documents as a single pdf by January 10, 2022** to Sabine Seidel ([sabine.seidel@uni-bonn.de](mailto:sabine.seidel@uni-bonn.de))
